         To configure a customized Logo, a user must create (or obtain) a
         computer image file with the following criteria.
```

Information on Logo It is irrelevant to PathTracker what information is contained on

the logo.

Creating an Image

that comes with Windows.

Step 1: Select an image program. Most any Image Editing program can be utilized to create a logo. For this example we will use "Paint"

@ Paint Documents (3) N

e)

Size on disk:

<u>Pixels</u>

entimeters

Open MS Word

3. Click on "Picture"

1□ 400 × 60px

-C" on the keyboard.

400 Height: OK Cancel You will now see a correctly sized background

**Step 6:** Move the Image to a desirable spot by clicking on the image with the mouse and dragging it. The image can also be resized. Resizing the image can result in lost resolution. Please note: It is best to select an Image (or Icon) that is already sized to easily fit on the background canvas.

Click on "Insert" from Main Menu

4. Browse to Image File and select the image file.

Copy the image. One way to do this is by pressing "CTRL

Go back to the Background Canvas in Paint and paste the

image to the background canvas. One way to paste the

▼ ধ Search Temp

No items match your search.

In WIN 7 the default temp folder is usually located

at "C:\ProgramData\PathTracker\Temp\". Note:

The location of this folder can be changed by the

check in the "Options" screen in PathTracker to

user. If you cannot locate the folder please

Q

- The image file must be named ReportLogo.bmp ReportLogo.gif ReportLogo.jpg ReportLogo.png The image file should be sized Pixels: 400 x 60 Or Centimeters: 10.58 x 1.59 or <u>Or</u> Inches: 4.17 x 0.63 The image Back Ground Color White - Any background Color will work but white will blend in with the existing reports
  - Step 2: Open "Paint". If you are using Win 7 you can run the "Paint" Program by clicking on the Win 7 Start icon and type Paint in the "Search Program and Files" box and Click on "Paint"

  - - Save <u>a</u>s Sen<u>d</u> in e-mail Set as desktop background Abou<u>t</u> Paint
    - E<u>x</u>it Choose 400 x 60 Pixels and select OK

1 🔒 🤚 (\* 🖚 | Ur

Step 5: Put your info on this background. For this example, I found an image of a Potato. I want to copy this Potato to the background canvas above. There are many ways to do this but for this example use Microsoft Word.
